# My Steed.

Oh, I had a steed called Fancy,  
She was very strong and fleet,  
But alas, she was so jazy,  
She would hardly drag her feet.  
She was strong enough and speedy,  
So I put her in a race,  
For I was more than ready,  
And I thought she'd win first place—  
So I urged her on with kindness  
And I drove her with the whip,  
But owing to her blindness  
She was very prone to slip.  
But she pussed made for the winner,  
Was such it took my breath,  
And I vowed, as I'm a sinner,  
That I'd race my nag to death,  
Before I'd lose the trophy.  
It meant my daily bread,  
But alas, she won me no lot,  
For she wickedly fell dead.  
As I told you, she was lazy,  
And I leave perhaps blind;  
But she'd 'er been a winner "as I say,"  
If she'd only been that kind.

Editha and the Prince or The King's Daughter.

Once upon a time there was a king and he had two daughters, Editha and Claribel. The king and queen would not let their daughters marry. They had money but they were selfish. The oldest daughter would never let Editha go with her when she went any where, she was too proud and selfish. Editha had to stay at home and do all the work. One night she dreamed that there were angels around her, she awoke and found an angel standing by her. The angel told her she would not have to stay at home any more but could go to all the dances and balls there were, but her sister should not know it. The angel told her to go to sleep and she would make things pleasant for her. The next night there was a grand ball and she went and the first she met there was a prince. The prince loved her at once and they danced together all that evening. The king and queen were waiting for her and were surprised to find that she had been with a prince. They were angry with her. That night the angel was again at her side and she found that Editha had been crying. She told her not to cry because the king and queen would forgive her and that her sister should be turned into a stone image.

Next morning the king and queen asked her all about the prince and when they found that he was a wealthy prince they did forgive her. A few days after the prince called to see her and he asked her if she would marry him. She told him she could not. He said if she did not he would die. This made her very sorry and she said she would try and see if she could not marry him. The prince told her to come to his palace the next week and tell him and then he left her.

That night the angel was again at her side and she told Editha to put the ring under her pillow and in the morning she would be at the prince's palace and the king and queen wouldn't care if she married him. This made her very happy and she put the ring under her pillow and went to sleep. In the morning she was at the prince's palace. She hunted in all the rooms for him but she could not find him. At last she found him in the garden reading. He was very glad to see her and when she told him she would marry him he fell on his knees beside her. They went away and were married and lived happily ever after. And the king and queen lived with them. **ERIEL, TALE.**

**THE MIDSUMMER FETE.**  
The fete Wednesday evening, Aug. 17, for the benefit of the Congregational church held in the Masonic Hall, Waterford Flat, was a brilliant success.  
Dr. Elison Hillier had charge of the fete, games and the races and it was due to his indefatigable labors that it was so successful. Nearly three hundred visitors and natives made a large crowd, the little party of 30 of the young men from Camp Katahdin were and they took many prizes home with them.

Brown, Stratford, Starbird, Gordon and Horton had dresses on backwards with half over the heads. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by causing the circulation of the blood to reach the diseased part of the ear. This is done by the use of the Eustachian Tube. When this tube is inflated, the hearing is restored. Deafness is the result, and unless the inflammation is removed, hearing will be destroyed forever. Nine cases out of ten are cured by the use of the Eustachian Tube. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

**AN OHIO TOWN THAT IS GROWING RAPIDLY.**  
How It Is Being Advertised by Its Chamber of Commerce—Many Committees Appointed to Look After the Town's Interests.  
The chamber of commerce of Mansfield, O., has had published and is circulating a neat little book telling of the many advantages of Mansfield as a place of residence and business. This is a splendid way to advertise a community and might be followed by other towns and cities to good advantage. One of Mansfield's most prominent and enterprising citizens, W. S. Capper, is the president of the chamber of commerce of that city and is doing much to promote the interests of the town.

# Iceberg Designs.

All the architecture of the world is represented in nature's iceberg designs. Sometimes a little berg will have the appearance of an Arab's white tent as it rides on a desert looking sea; another, its sharp outlines softened in the vaporous atmosphere, will appear like a domed mosque in green marble. A cluster of Chinese pagodas comes drifting slowly down the current, followed by a stately Gothic cathedral, early style. Then comes a coliseum, and beyond a huge man-of-war floats down the current, its stem submerged, with foam grandly breaking over it, the stern 75 feet aloft.

# AUGUST SPECIALS:

Mansfield is one of the most beautiful and healthy towns in the United States. It has the best of schools, many fine churches, miles of brick and asphalt pavements, fine residential streets and manufacturing of all kinds, with worldwide trade. Being populated with people of enterprise it is growing rapidly and in many respects is far ahead of towns twice its size in the Buckeye State.

All the architecture of the world is represented in nature's iceberg designs. Sometimes a little berg will have the appearance of an Arab's white tent as it rides on a desert looking sea; another, its sharp outlines softened in the vaporous atmosphere, will appear like a domed mosque in green marble.
